

## **MINI SEVEN RACING CLUB**

**BULLETIN #3\_2012**

**RE: TRACTION CONTROL**

To all Club Members and Associates,

Following a query regarding traction control, the Committee of the Mini Seven Racing Club issues the following clarification:

Under 2012 Regulation section 5.9.2 *“PROHIBITED modifications”*,  
2012 Regulation TR 5.9.2.2 currently states:

*“Any form of traction control. A single-speed sensor is permitted on both rear wheels only.”*

However, the correct intended wording of 2012 Regulation TR 5.9.2.2 should read as follows:

*“Any form of traction control. A single-speed sensor is permitted on either rear wheel only.”*

Issued by: **Richard Williamson**  
Championship Coordinator – Mini Seven Racing Club
